Use of manuscript materials. If you wish to examine items in the manuscript group, please place a request via the Special Collections Request System. Consult the Container List for location information.

Photocopying. Should you wish to request photocopies, please consult a staff member. Do not remove items to be photocopied. The existing order and arrangement of unbound materials must be maintained. Reproductions must be made from surrogates (microfilm, digital scan, photocopy of original held by LSU Libraries), when available. Additionally, see Reproduction Note in Summary section.

Publication. Readers assume full responsibility for compliance with laws regarding copyright, literary property rights, and libel.

Proper acknowledgement of LLMVC materials must be made in any resulting writing or publications. The correct form of citation for this manuscript group is given on the summary page. Copies of scholarly publications based on research in the Louisiana and Lower Mississippi Valley Collections are welcomed.

SUMMARY

Size	9 linear feet, 1 manuscript volume
Geographic Locations	Baton Rouge; Louisiana
Inclusive Dates	1924-2016
Bulk Dates	1950-1999
Languages	English
Summary	The collection consists of printed materials (1924-2016) created by or about Exxon Baton Rouge, its predecessors or divisions, and the oil industry, and photographs (bulk 1950-1999) related to the production of Exxon Baton Rouge's and its predecessors' in-house print media, especially the <i>Baton Rouge Record</i> . Photographic materials are arranged as they arrived from the corporation in two large divisions-one identified by the publication in which the images were used and the other by topic.
Access Restrictions	No restrictions on access.
Reproduction Note	Any materials requested for reproduction with the intent of using them outside of LSU Libraries Special Collections MUST have prior written permission for use from ExxonMobil, its heirs and assigns. To obtain permission to publish write to: ExxonMobil Baton Rouge Area Public & Government Affairs Manager 4999 Scenic Highway Baton Rouge, LA 70805
Copyright	Physical rights are retained by the LSU Libraries. Copyright is retained by ExxonMobil and its subsidiaries.
Related Collections	Published works from this collection have been cataloged separately. See the Libraries' catalog for those materials. John Adam Bechtold Photographs, Mss. 5175
Citation	ExxonMobil Baton Rouge Historic Collection, Mss.5030, Louisiana and Lower Mississippi Valley Collections, LSU Libraries, Baton Rouge, La.
Stack Location(s)	76:1-8; OS:E; 104:-105:

BIOGRAPHICAL/HISTORICAL NOTE

Standard Oil, a predominant American integrated oil producing, transporting, refining, and marketing company, was established in 1870 as a corporation in Ohio. It was the largest oil refiner in the world and operated as a major company trust. It was also one of the world's first and largest multinational corporations until it was broken up by the United States Supreme Court in 1911. Some of the companies resulting from that court-ordered break up were:

- Standard Oil of New Jersey, also known as Esso. Esso was renamed Exxon, which is now part of ExxonMobil.
- Standard Oil of New York merged with Vacuum and was renamed Mobil, now part of ExxonMobil.
- Standard Oil of Louisiana was always owned by Standard Oil of New Jersey, now ExxonMobil.

Standard Oil of Louisiana began construction of an oil refinery in Baton Rouge in April 1909. During the intervening years the corporation changed names a number of times and expanded the original refinery to include an increasingly complex interrelated set of petroleum refineries and chemical plants using feed stock from local and more distant refineries.

The Humble Oil Company incorporated in Texas in 1911. That entity reorganized in 1917 and incorporated as the Humble Oil and Refining Company. In February 1919, Humble doubled the number of shares authorized and sold 50 percent of its stock to Standard Oil Company of New Jersey. In the 1950s Standard Oil of New Jersey began to reconsider its relationship with Humble Oil such that by 1959 Humble and Standard Oil of New Jersey consolidated domestic operations. By the end of the year Esso Standard and the Carter Oil Company, other affiliates of Standard of New Jersey, were incorporated into Humble, and in 1960 they were joined by other affiliates including Enjay Chemical. The corporate name change from Standard Oil of New Jersey to Exxon Corporation took effect January 1, 1973. In this same era Humble Oil and Refining Company became Exxon USA and Esso Chemicals and Enjay Chemicals merged into Exxon Chemicals. As of 2015, the refineries and chemical plants in Baton Rouge retain the name ExxonMobil.

Unless materials are explicitly identified by one of the predecessor corporations or a subdivision thereof, any references to ExxonMobil in this finding should be understood to include all the predecessor entities now encompassed by that corporate name.

SCOPE AND CONTENT NOTE

The collection consists of three series: printed materials, publication materials, and photographs.

Printed materials include a wide range of formats created by or about ExxonMobil Baton Rouge, its predecessors or divisions, and the petroleum industry in general. Among the materials in this series are local company newsletter(s) and a variety of advertisements, brochures, and posters related to the petroleum industry, its refineries, and chemical plants.

Publication materials contain materials created by the ExxonMobil Baton Rouge public relations department and its predecessors' in-house print media. These primarily include photographs published in the corporate newsletter, *Baton Rouge Record*. Other materials comprise company advertisements, press releases, and source materials. Dates of the publication materials range from 1924 to 1999 with occasional gaps in the chronology. Please see below for details of the separated publications.

In addition to the photographs used in the *Baton Rouge Record* found in the series Publication Materials, general photographic files are also found in the collection. These materials are arranged topically, as they arrived from ExxonMobil Public Relations. Photographs document the people, places, and things related to ExxonMobil Baton Rouge and some other related petroleum sites. Identified and unidentified employees and images of refineries and chemical plants form the bulk of the photographic series. The majority of the photographic materials fall in the date range of about 1950 to 1999, with a small amount of material from before 1950. Entities represented include Standard Oil Company of New Jersey, Humble Oil, Enjay Chemicals, Exxon Chemical Baton Rouge, Exxon Baton Rouge, Exxon Baytown, Bayway Refinery (Linden, N.J.), Benicia Refinery (Benicia, Ca.), and others.

Separated Materials:

The company's newsletters and related news publications "morgue" were also included with this donation. Those published materials were cataloged separately.

The first newsletter, *The Stanocolan*, focused on the refinery and was published from 1924 through 1956. The title changed to the *Esso News* in 1957 and continued under this name until 1966. In 1967 the title changed to the *Baton Rouge Record* and continued under this title until 1995. In this period a second newsletter began, *Exxon ChemUnity News*, 1989-1995. This second newsletter focused on the chemical plant side of operations to supplement the refinery side of operations.

In April 1995 a new newsletter, *Exxon Neighbor News*, began publication. This publication was focused on and distributed to the community living around and near the Baton Rouge refinery and chemical plant complex.

Beginning in October 1995 the *Baton Rouge Record* and the *Exxon ChemUnity News* were combined into *Red Stick News*.

These publications have been removed from the manuscript materials and cataloged separately as publications. They may be found in Hill Memorial Library at the following call numbers:

- *The Stanocolan*: 1924-1937, 1940-1956 (call number LLMVC HD9569 .S82 B38)
- *Esso News*: 1957-1959, 1961-1966 (call number LLMVC HD9569 .S82 B38)
- *Baton Rouge Record*: 1967-1983, 1987-1995 (call number LLMVC HD9569 .S82 B38)

- *Exxon ChemUnity News*: 1989-1995 (temporary call number LLMVC XX(3752939.1))
- *Exxon Neighbor News*: April 1995-Fall 1997 (temporary call number LLMVC XX(3749777.1))
- *Red Stick News*: 1995:Oct.-1999 (temporary call number LLMVC XX(3752940.1))

LIST OF SERIES, SUBSERIES, AND SUBSUBSERIES

Series I. Printed Materials, circa 1935-2016

Subseries A. ExxonMobil and predecessors, circa 1935-2016

Sub-sub series 1. Publications, 1935-2016

Sub-sub series 2. Posters, 1944-1984

Sub-sub series 3. Tear sheets, 1938-1960

Sub-sub series 4. Commemorative editions, 1959, 1984, 1989, 1995, 1999-2000

Subseries B. Non-ExxonMobil and predecessors, 1959-1999

Series II. Publication Materials, 1943-2006

Subseries A. Advertisements, 1997, 2006, undated

Subseries B. Press releases, 1992, 1993, 1994, 2001

Subseries C. Public Relations structure and responsibility, 1992, undated

Subseries D. Article source material, 1943, 1957, 1958, 1994, undated

Subseries E. Randolph Meyer retirement book mock-up, 1987

Subseries F. Baton Rouge Record-photographs, negatives, etc., 1983-1996, undated

Series III. Photographs, circa 1930-1999, undated

Subseries A. Community and events, circa 1950-1999

Subseries B. Awards, circa 1950-1989

Subseries C. People, circa 1940-1999

Subseries D. Refineries and chemical plants, circa 1930-1999

Subseries E. Environment, circa 1940-1999

Subseries F. Exploration and Production, circa 1940-1989

Subseries G. Motorized Equipment, circa 1940-1969

Subseries H. Products, circa 1950-1960

Subseries I. Product Transportation, circa 1940-1989

Subseries J. Signs, 1961, undated

Subseries K. Service Stations (ESSO, HUMBLE, and EXXON), undated

Subseries L. Tanks and Tank Farms, circa 1940-1969

Subseries M. Non-petroleum related photographs, circa 1950-1999

Series IV. Manuscript Volume, 1938-1939

SERIES, SUBSERIES, AND SUBSUBSERIES DESCRIPTIONS

Series I. Printed Materials, circa 1935-2016

Subseries A. ExxonMobil and predecessors, circa 1935-2016

Sub-sub series 1. Publications, 1935-2016

Publications cover a wide range of petroleum related topics including *Rubber from Oil*, Training Department articles, publications on the petroleum industry in Louisiana, and items specific to the Baton Rouge refinery and chemical plant operations. There are a few items from other Exxon refineries and chemical plants in the United States.

Sub-sub series 2. Posters, 1944-1984

Posters largely deal with how petroleum is converted into the many different products ExxonMobil and its predecessors manufacture. Some, like *Steam cracking: top recipe for chemicals*, are specific to a particular aspect of productions while others, like *From Oil Well to You . . . Petroleum Flow Chart*, take a larger view.

Sub-sub series 3. Tear sheets, 1938-1960

Tear sheets are, for the most part, unmounted articles on the Standard Oil of Louisiana refinery baseball team published in the company newspaper, *The Stanocolan*, between 1938 and 1960. There are two other items are mounted front pages of *The Stanocolan*, volume 1, number 1, and *The Baton Rouge Record*, volume 44, number 1.

Sub-sub series 4. Commemorative editions, 1959, 1984, 1989, 1995, 1999-2000

Commemorative editions celebrate a number of anniversary dates for the Baton Rouge refinery and other Exxon refinery sites around the country. The 50th, 75th, and 100th anniversaries of the Baton Rouge facility are here as well as anniversary editions for the Bayway Refinery (Linden, NJ), Benicia Refinery (Benicia, CA), and Baytown (TX) Refinery. A four-part series from *The Sunday Advocate* (Baton Rouge, La.) published in late-1999 and New Year's Day 2000 marks the Millennium in Baton Rouge.

Subseries B. Non-ExxonMobil and predecessors, 1959-1999

This subseries consists of a few petroleum related publications from a number of sources. Of particular interest is an off-print of *A National Historic Chemical Landmark: The Fluid Bed Reactor, Baton Rouge, La.*, 1998 November 3, American Chemical Society, Division of the History of Chemistry and The Office of Communications and a short run of *Environmental Solutions*, Baton Rouge Right-To-Know Council, 1989-1992.

Series II. Publication Materials, 1943-2006, undated

Subseries A. Advertisements, 1997, 2006, undated

Advertisements relate directly to products or safety and education projects within or sponsored by ExxonMobil, Baton Rouge.

Subseries B. Press releases, 1992, 1993, 1994, 2001

Press releases relate to the marine vapor recovery system and includes images as well as text; plant tours for civic groups; an annual open house for the Baker-Zachary Industrial Manufacturers Group; efforts relating to a fire in the Coker and Sponge Tower (1994), and; an ExxonMobil Foundation donation to the Capitol Area United Way.

Subseries C. Public Relations structure and responsibility, 1992, undated

This subseries contains two documents related to the Public Affairs Emergency Response Guide and the Baton Rouge Site Synergy Activities Plan.

Subseries D. Article source material, 1943, 1957, 1958, 1994, undated

Materials in this subseries were used as sources for articles on World War Two, general history, and a 1994 desegregation case. A fourth set of materials related to security badges in the 1950s.

Subseries E. Randolph Meyer retirement book mock-up, 1987

This subseries contains a mock-up of a retirement book created for Randolph Meyer's retirement in 1987. The final, published, retirement book does not exist in this collection.

Subseries F. Baton Rouge Record-photographs, negatives, etc., 1983-1996, undated

The Baton Rouge Record-photographs, negatives, etc. contains materials used to create individual issues of the ExxonMobil in-house newspaper, *The Baton Rouge Record*, the third title for the refinery newspaper. The first was *The Stanocolan* (1924-1956) followed by *Esso News* (1957-1966).

The materials in this subseries are, for the most part, black & white photographic prints in a number of sizes, black & white photographic negatives in variety of formats, black & white photographic contact sheets in variety of formats, clip art used in the set up on the individual issues, camera-ready cartoon art for publication, an occasional xerographic copy of pages or an entire issue, and other items used for publication.

Series III. Photographs, circa 1930-1999

In addition to the photographs used in the *Baton Rouge Record* found in the series Publication Materials, there are also general photographic files in the collection. These materials are arranged topically, as they arrived from ExxonMobil Public Relations. Topics include community and events, people, places, environment, service stations, exploration and production, motorized equipment, petroleum storage, pipes and pumps, product transportation, products, signs, tanks and tank farms, and non-petroleum related photographs. The latter include images of animals (especially tigers), awards, Baton Rouge and vicinity, coal operations, filming of the movie "The Toy," construction scenes of the Huey P. Long Bridge, Louisiana, stills from the motion picture *The Pirogue Marker*, and weather and nature.

When images for a given topic exist in multiple photographic formats, those materials have been additionally organized and housed by format.

Subseries A. Community and events, circa 1950-1999

Community and events subseries covers a wide range of subjects including the 1984 Louisiana World Exposition, a number of ExxonMobil employee events, adult education, contract signings, and community festivals in which Exxon employees took part.

Of particular interest are employee recognition and recreational events. These include the following: two "year pin events" in which employees were given lapel pins for 30 and 40 years of service. Many, but not all, of the portraits and images of the pinning events identify employee receiving the pin. These events took place between 1951 and 1955 meaning these employees had started working at the refinery between 1911 and 1925; ESSO Booster Club Miss ESSO contests and appearances of Miss Esso in a number of contexts within the refinery including one photo shoot of Miss ESSO on the roof of the refinery administration building with a rifle; HESA Gun & Skeet Club shows and images captured on the shooting range; Retirement events/parties, 1952-1955, with 36 of 44 events identified; President's Safety Award photographs documenting the presentation events from the late-1970s through the late 1980s, and; The Sports subseries showing employee baseball, basketball, bowling, football, golf, softball, swimming, and tennis teams.

Subseries B. Awards, circa 1950-1989

The Awards subseries documents awards presented to ExxonMobil by various entities outside the petroleum industry including Baton Rouge Business Awards, Baton Rouge Chamber of Commerce, International Firefighters contest, Southern Public Relations Federation, and the Dunlop Tire Company. Also included are two unidentified award events.

Subseries C. People, circa 1940-1999

This subseries includes a wide array of images related to employees of ExxonMobil, in some case in the context of events. Of particular interest are Baton Rouge Oil & Chemical Workers' Union images showing union representatives, other officials, contract signings, and management information meetings; division/department Group photographs from 1944 through 1989 with the bulk of the images created between 1952 and 1963; Management Orientation Program group portraits and images created during tours, training sessions, and other events with most of the images created between 1947 and 1952, and employees at work in various settings in and around the refinery and chemical plants between 1944 and 1970.

Subseries D. Refineries and chemical plants, circa 1930-1999

The Refineries and chemical plants subseries contains a wide array of images of several identified refineries, chemical plants, and components thereof. Of particular interest are Baton Rouge Refinery and Chemical, including a fairly large number of aerial, birds-eye-views, and ground level images of the complexes, and many identified plant units including, but not limited to the following: alcohol, ALDOX, aromatics, benzene, butadiene, CAT crackers, cokers, elastomers, expanded poly-lactic acid (EPLA), mercap finer, PHLA, pipe stills, rubber and butyl, specialties units, and sulfur recovery/MDEA units.

Also in this subseries are a number of related but not specifically petroleum related images such as the refinery cafeteria and mobile food units, circa 1950-1969; Hurricane Betsy preparation and storm damage including the master separator sunken barge; Lube clay filter building demolition; Mechanical Training Center including images of the building itself, the skills laboratory, and "Room 3"; office buildings, and Stanocola Medical Association building, 1953.

Subseries E. Environment, circa 1940-1999

This subseries is further subdivided into air and water components. Only one folder in the air component is specific to a particular kind of air quality effort, the PHLA Project, 1957. The water

quality component includes water and wastewater treatment, water conservation equipment, and drawings of wastewater treatment facilities.

Subseries F. Exploration and Production, circa 1940-1989

The exploration and production of petroleum is the foundation of the oil industry. This subseries includes a number of images related to not only the process of exploring for oil but to the drilling for and extraction of petroleum. Of particular interest are images of the ocean-going Glomar Pacific exploration ship and other water-borne exploration vessels.

Subseries G. Motorized Equipment, circa 1940-1969

This subseries contains images of the many types of motorized equipment required to transport things to and in a refinery and chemical plant.

Subseries H. Products, circa 1950-1969

A number of images show various products manufactured by ExxonMobil. Of special interest is a set of images showing Pat McCurmin with petroleum-derived household and beauty products, 1953.

Subseries I. Product Transportation, circa 1940-1989

Getting petroleum feedstock and products moved from the refinery and chemical plant requires a number of transportation modes. This subseries includes rail, motor, and water modes of transportation. Within each mode are images of interest including the first rail tank car of butyl produced in the Baton Rouge facility, 1960; docking facilities on the Mississippi River in Baton Rouge; vessels used to move products on inland waterways including the raising of the sunken *Sea Eagle* tug; vessels used to move products on the oceans including a number of images created on a tour of one of the ocean-going tankers, and moving products by truck from a landside warehouse to an ocean-going ship, 1958.

Subseries J. Signs, 1961, undated

There are images of a number of signs featuring company logos and advertisements in a number of settings, including billboards and signs on buildings within the refinery complex.

Subseries K. Service Stations (ESSO, HUMBLE, and EXXON), undated

Fuel for a number of motor driven machines is a key component of ExxonMobil production. Service stations represent the end point of the distribution of those fuels. This series includes images of land, sea, and air service stations providing ExxonMobil products.

Subseries L. Tanks and Tank Farms, circa 1940-1969

Unprocessed petroleum, petroleum refinery products, and chemicals require bulk storage at various points in the refining process. Tanks and tank farms are one of the most common forms of bulk storage.

Subseries M. Non-petroleum related photographs, circa 1950-1999

This subseries contains a wide array of subject material. Among those subjects are: animals; art; images of Baton Rouge and vicinity; coal operations; images from EPCOT (1981, 1982); scenes from the filming of "The Toy" with Richard Pryor and Jackie Gleason (circa 1980); copy negatives of "historic" images; the building of the Huey P. Long Bridge spanning the Mississippi River between East and West Baton Rouge Parishes; images of Baton Rouge law enforcement, firefighting, and EMS

equipment; Louisiana scenes; a partial solar eclipse (undated); stills from the film, *The Pirogue maker*, 1946, as well as associated images of a pirogue in the Smithsonian; tiger and tiger related images; truly random images including a close-up of a human eye, sugar cane crop yield information charts, maze running rat and chicken data charts; weather and nature images including a group of snow and ice images, and; Web site art (1999).

Series IV. Manuscript Volume, 1938-1939

This series consists of a record book. Pages 1-73 contain data entries recording gasoline elements such as "T.E.L.," "Tank," "Source," "Formula," "Class," "Grade," "Octane Number," and "Coleman." Pages 150-169 contain entries on purchased gasoline rated, mainly in Louisiana and Arkansas territories. The remaining pages contain scattered entries and recordings, including data on samples from Riverside Plant (page 201) and Grand Lake Plant (page 203).
